CHIP CHAMPION™ Casino Chip Cleaning System

The Bar Maid CHIP CHAMPION™ Casino Chip Cleaning System allows casinos to routinely clean chips, dice and tiles in-house to reduce potential spread of pathogens among staff and players.

Sanitize chips, dice and tiles with an EPA registered multi-purpose quaternary tablet sanitizer (sold separately), then feed up to 160 chips per minute into this portable, stainless steel machine where they are gently scrubbed and dried by hot organic granulate, then exposed to a UV-C light before exiting dry and immediately ready for use.

- ◆ Quaternary Tablet Sanitizer... Economical tablet sanitizer (sold separately) is easy to store, dissolve in water according to label directions to prepare sanitizing solution on demand.
- ◆ Fast payback... CHIP CHAMPION models process thousands of chips, dice and tiles per hour. Significantly reducing labor costs of cleaning by hand or expensive chip cleaning services.
- ◆ Increased hygiene... Routine cleaning reduces potential spread of pathogens and increases chip life as chips look newer longer.
- ◆ Portable... All CHIP CHAMPION models have a relatively small footprint that fits most work tables or use the optional wheeled cart for easy portability and storage.
- ◆ 3 Models... Choose the CHIP CHAMPION that suits your needs based on volume and available space.

WHY PREMIUM POURS ARE "BEST IN THE BAR"...

1. Pourer ball bearings don't fall into the bottle thanks to our special patented design.
2. Smoother pour with less sticking ensured by a primer ring to channel liquor around the inner ball bearing.
3. Greater accuracy means more profit per bottle thanks to the patented three ball design.
4. Easy removal with our "lock-on" collar.
5. Three popular shot sizes 1, 1 1/4, 1 1/2 ounces, wide cork (larger bottles) and flip-tops (to keep the fruit flies out).
6. MADE IN USA

BAR MAID MEASURED POURERS PROVIDE ACCURATE, CONSISTENT POURS AND PLACE THE POWER OVER PROFITS IN THE HANDS OF THE BAR OWNER.

How much profit could be lost each year to free pouring?

1 case (twelve .75 ltr bottles) = 304 ounces and yields 243 1 1/4 ounce pours

Just 1/4 ounce over pour per drink results in a yield of only 203 drinks per case

At \$6 a drink, the bar owner could be LOSING \$240 PROFIT PER CASE

Multiplied by 7 cases a week results in

\$87,360
LOST PROFIT PER YEAR!
